

Lafayette Faculty have **GREAT** things to say about  
**THE TEACHING SQUARES PROGRAM**

“

The Teaching Squares program was a great way for me to connect with faculty members from other departments.

”

“  
Going in knowing that we were specifically observing not to critique, or be critiqued, but to reflect on our own teaching was liberating and refreshing.

”

“

It was a liberating and instructive experience; one I would recommend for all teachers.

”

“

The gift was that this was in a non-competitive environment, one where I would not be expected to justify or critique.

”
