

Getting Started with **Alternative Grading**

Spring 2026 Themed Workshop Series

This 4-part series offers resources, support, and community for faculty across disciplines to explore, adopt, and/or refine alternative grading or assessments in their courses. It is open to people new to these concepts, as well as experienced practitioners seeking to deepen their understanding and share their successes and challenges.

Thursdays 12:15 - 1 PM @ 507 Acopian Engineering Center

February 5th: Why consider "alternative grading"?

March 5th: What are examples of "Specifications" and/or "Standards-based" Grading?

April 9th: How might I employ "hybrid" or "partial" alternative approaches to assessment?

April 30th: What could alternative grading look like in my class?

Lunch will be provided.
