

Universal Design for Learning

Spring 2026 Themed Workshop Series

Are you interested in designing learning experiences to...

- Elevate learners' strengths
- Eliminate barriers to success
- Embrace individuality and cultivate agency among students?

Then this series is for you!

Come join faculty and staff colleagues in this 4-part series to explore Universal Design for Learning (UDL) principles and how to integrate them into your teaching and advising.

Thursdays 12:15 - 1 PM @ 507 Acopian Engineering Center

February 12th: What is UDL and why is it important for teaching?

March 12th: Boosting student engagement and motivation

April 2nd: Providing varied and accessible course content

April 16th: Options for students to demonstrate knowledge & Next steps

Lunch will be provided.

Share your interest in
participating.
